Dashboard

About me page

- [ ] After I've added a website under portfolio, this is visible in contact card, but when i remove it, default website it not visible. Please remove portfolio textbox and make sure default link to profile is always visible.

Front-end profile view
- [ ] Mailinglist popup on desktop and iPad doesn't look good.
- [ ] Name and profile images is not correctly displayed on iPad landscape mode
- [ ] Contact card, when i say on the backend that i want to keep my email private, or not private. I don't see email in contact card either way. Should only be visible when unchecked. If checked should be hidden. Only when i select don't hide my phone. The email becomes visible

Social links page
- [ ] Whatsapp nummer textbox is still smaller on desktop and iPad view. Please make the same for all.
- add new facebook messenger option in social media. Make sure all designs are the same. Now the opensea.io is in color in the backend and also too wide

Links page
- [ ] Links: Add www. Inside link section just like in other place. Or make sure all formats will be recognized. Is this possible? Is there a smart way to do this?

Gallery and exhibition pages

- 2 lines when only 1 exhibition and no pdf or gallery. Please remove 1 in that case
- 2 lines when only 1 gallery and no pdf or exhibition. Please remove 1 in that case

Other
- [ ] E-mail address sender forgot password and newsletter signup messages should be noreply@brush.bio

- [ ] Already logged in page. Is auto redirect possible ?.. change font size of page if not.
- [ ] Design 404 error page. Should be the already loggedin page you have now
- [ ] Password reset page. "Cancel" link next to button. This will make user go back to previous page.
- [ ] Go to dashboard. Click logout.. then click the back button in the browser. Will give an error. Should just go to login page

Mailinglist
- [ ] Manage mailinglist: checkboxes to select what to export, select all option available. Date, email. Export should prompt option csv or excel.
- [ ] Remove cookie selection option (set to 3 days on default)
- [ ] Select all hyperlink top left
- [ ] Export all (option to select csv or excel from a dropdown that appears
- [ ] Make possible to sort on date and/or email
- [ ] Show total number of subscribers below
- [ ] Export selected should be just text next to export all button (hyperlink)

Register
- [ ] First page is now: lets get started on your profile
Please replace with

- [ ] Save to calendar events. Bell icon.

Artwork Back-end Fields : Title, year, price, medium, size (select inch or cm), description, images (3x)
Filter and sort based on price and size
Size: 40 W x 40 H x 3 D in

Dropdown to select means of contacting: email, WhatsApp (if filled in) messenger (if filled in), skype (if filled in).

Also if people filled in a gallery representation. They can select that gallery email.
Then the button on front end will change accordingly
